

I am a senior with hearing loss and a member of SHHH who requires captioning to fulfill my needs to understand and enjoy television and movies. I find that many stations do not have captioning even though they have it listed in the newspaper. I want to remain in the hearing world and without the accommodation of captioning it leaves me sad and depressed when I only hear parts of sentences. Please do all you can to provide captioning on all the TV stations. It is not right that only some stations have it and other do not. It is discrimination plain and simple. Captioning also helps our children and those learning English as a second language to read earlier and learn English more quickly. Thanks for listening. Remember the hearing person reading this knows a family member, or friend who does not hear as well as they once did.
